Summary

Aspiring architect from Morocco with a passion for innovative, sustainable design and strong technical expertise in 3D modeling and visualization. Focused to incorporating sustainability and adaptive design into contemporary designs.

Education

University of Plymouth

Plymouth | September 2022 - Present (Expected Graduation: June 2025)

- Conducted site analyses to inform design decisions and project practicality.
- Crafted detailed architectural designs integrating **adapting sustainable materials** and **adaptive designs**. (Example: The Pivot Market)
- Produced **3D models and visualizations** to communicate design concepts effectively. (Example: The Engine Room)
- Engaged in collaborative space planning, privacy, and accessibility with colleagues in design solutions.
- Developed detailed BIM manuals to **streamline project data management** and coordination.

Languages

- English
- French
- Arabic

Experiences

TRACT Architecture: Central Park Project (Intern)

Liverpool | June 2024 – August 2024

- Aided in implemented **fire safety protocols** to ensure compliance with Building Regulations.
- **Managed documentation systems** for design drawings, contracts, and specifications, streamlining project workflows.
- Resolved window and door installation issues by coordinating with contractors and providing technical solutions.
- Attended stakeholder meetings and documented **key decisions and action points**, enhancing communication efficiency.

University of Plymouth: Student Hub Redesigning (Micro-Internship)

Plymouth | March 2024 - April 2024

- Redesigned the Student Hub to emphasize the **functionality, accessibility and privacy of stakeholders**.
- Implemented adaptive **material strategies** to respond to social and environmental needs.
- Developed flexible layouts allowing spaces to be effectively reconfigured for diverse uses.
- Proposed a **comprehensive budget layout** outlining cost-effective solutions with varying expenses.
- **Resolved design constraints** related to sound resonance, storage, and workspace visibility through innovative solutions.

Technical Skills

Revit

SketchUP

ArchiCAD

AutoCAD

Adolbe Suite

Additional Experiences

Sober Society Vice President

January 2024 – June 2024

- **Leadership:** Engaged and welcomed members by fostering an inclusive environment, increasing participation.
- **Event Coordination:** Organized events with committee members, including a collaboration with the Malaysian Society, hosting a minimum of 20 attendees per event.
- **Community Building:** Creating a supportive and engaging society atmosphere.

Student Representative

October 2022 – May 2023

- **Communication & Mediation:** Advocated for students' concerns and facilitated communications with university staff.
- **Team Collaboration:** Worked with fellow representatives to address issues and improve the student experience.
